## ABOUT THE SKILL ACQUISITION

The **Hope for Nigeria** is holding a Free Skill Acquisition Program for Nigerians. The Program is aimed at Developing Nigerians through acquisition of basic Production Skills that will enable an Individual to become productive and jointly develop the economy.

The Organization curled her guideline based on the Central Bank of Nigeria's (CBN) directives on training and production. We can guaranty that 10% of those who undergo the training will receive external funding, while over 70% will be able to establish themselves and generate funds after the process.
